Cloud Solutions Overview

Optimize the Way You Do Business with MiCORE's Cloud Solutions

For organizations looking to achieve agility, scalability, and enhanced performance, MiCORE provides a robust set of cloud solutions and support services designed to help get you there.

Our dedicated cloud specialists have a deep understanding of the complexities and potential challenges of the cloud journey. With a wealth of proven skills and experience, MiCORE fast-tracks and streamlines your cloud journey while alleviating IT burden and decreasing organizational risk.

MiCORE's Cloud Center of Excellence

At the heart of MiCORE's cloud services is the **Cloud Center of Excellence**, where our experts are hard at work building out services, solutions, and best practices that help companies move their environments to the cloud. The specialists in our CoE are currently focused on developing:

- Tools and accelerators for easier cloud adoption
- Business Intelligence (BI) and Analytics in the cloud
- Enterprise data management in a hybrid cloud environment
- "Lift and Shift" architecture best practices
- ...and more!

Why Cloud Computing?

Organizations are adopting the cloud for its ability to transform IT operations and optimize business:

- Improved TCO
- More predictable costs
- Improved agility for test and development cycles
- Ability to burst into the cloud during times of high demand and peak data use
- Reduced OPEX related to physical infrastructure costs
- Improved speed and scalability
- Consolidation of IT systems
- IT teams are able to focus on innovation instead of running and maintaining systems

Benefits of Working with MiCORE

✅ **We Make IT Personal:** Your dedicated MiCORE cloud specialist delivers personalized, end-to-end support - from discovery and design to migration and ongoing support of your custom cloud solution

✅ **The Skills You Need:** MiCORE's team of cloud specialists have expertise in Oracle Cloud, Amazon Web Services (AWS), Microsoft Azure, and other cutting-edge cloud service providers

✅ **Security and Scalability:** Stay current with enterprise cloud technologies designed to protect your data and optimize your IT investment as your business continues to grow

✅ **Tailored to Your Environment:** Our full suite of cloud solutions are flexible to meet the unique needs of your organization

✅ **Drive Your Business Forward:** MiCORE provides 24x7x365 monitoring and proactive support of your cloud environment, so you can focus on other initiatives that take your business to the next level

MiCORE's Cloud Service Offerings

Partner with our team of cloud experts to create, test, deploy, and manage a successful cloud solution and achieve end-to-end cloud enterprise modernization.

Cloud Readiness Assessment

Every new cloud initiative kicks off with a comprehensive Cloud Readiness Assessment.

- In-depth assessment of business and technical components
- High-level portfolio discovery
- Analysis of capabilities and resource gaps
- Identify opportunities for the cloud and where to start
- High-level strategy and recommendations for how to approach cloud computing

Cloud Solution Planning & Value Analysis

Above all, the cloud is a business decision. What is the financial impact for your company?

- Evaluate current software license inventory
- Deliver a concise picture of how cloud computing may benefit your business goals
- Roadmap for how to transform operations and extract greater value from existing resources
- ROI/TCO Analysis and Business Plan development
- Assistance in quantifying ROI and benefit realization

Cloud Implementation & Migration

Reduce the risk and complexity of moving to the cloud with help from our migration engineers.

- End-to-end architecture, planning, and governance guidance
- In-depth portfolio discovery and rationalization
- Design cloud architecture and deployment roadmap
- Build, install, and configure cloud infrastructure
- Safe migration of data and applications into the new cloud solution
- Training and skills transfer

Cloud Support Services

Maintain optimum performance, security, and scalability of your cloud solution.

- 24x7x365 monitoring
- Security Monitoring
- Proactive Support: Feature enhancements, performance tuning, and patching
- Upgrade and configuration management
- Reporting and Application Maintenance
- Incident management and troubleshooting
- Documentation and roadmapping

Take Charge of Your Data

MiCORE's Cloud Solutions focus on how to effectively manage and draw meaningful insight from the growing universe of organizational data. Using a customer-centric approach, MiCORE delivers the cloud strategies needed to successfully navigate the enterprise data challenges of today while building a solid strategy for success in the data-driven future.
